## SET UP (09-903)

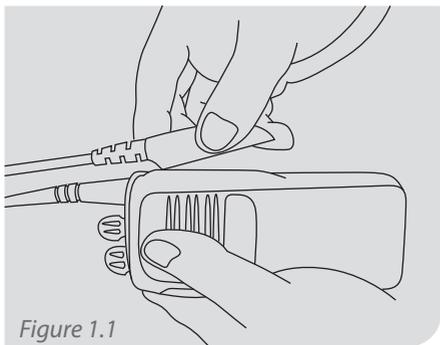

Figure 1.1

Connect the PTT Cable to the Hand Set.

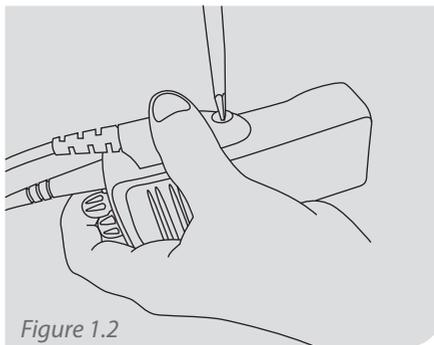

Figure 1.2

Use a Flat head screwdriver to tighten the connection screw.

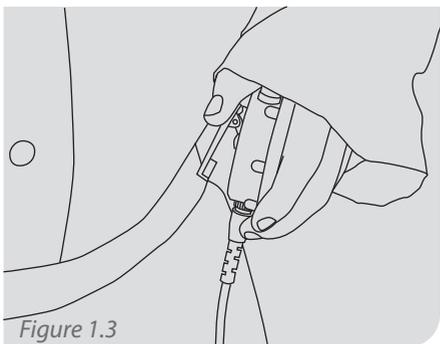

Figure 1.3

Attach the PTT to your belt so your elbow can activate the Button.

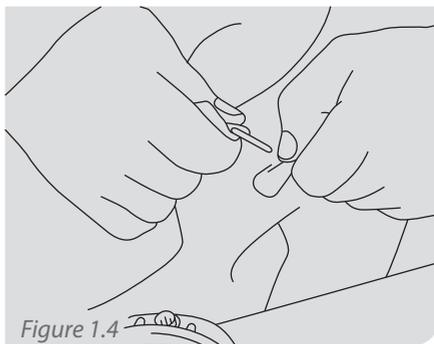

Figure 1.4

Place the helmet on and connect the clips and D Rings on the Cape together.

# rpb<sup>®</sup> NOVA 3 TALK<sup>®</sup>

## SET UP (09-903) CONTINUED

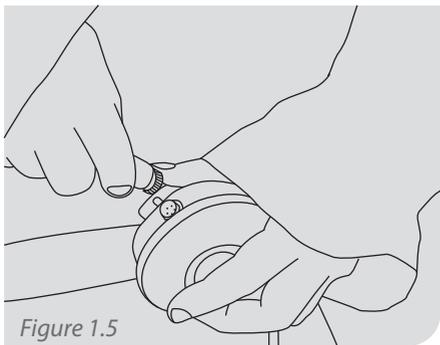

Figure 1.5

Connect the PTT cable to the head set cable and place the cable underneath the cape.

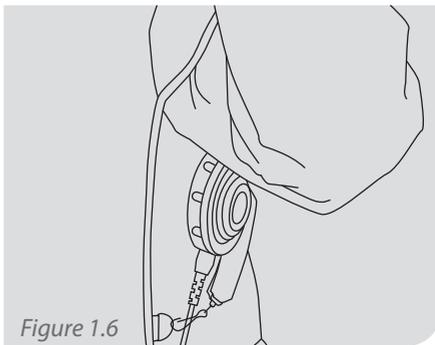

Figure 1.6

To operate the device, press your elbow onto the PTT Button, and then speak.

## PROTECTIVE SHROUD

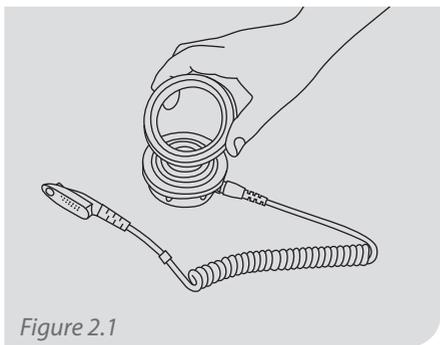

Figure 2.1

The Protective Shroud is used when working in positions that the PTT could be activated accidentally.

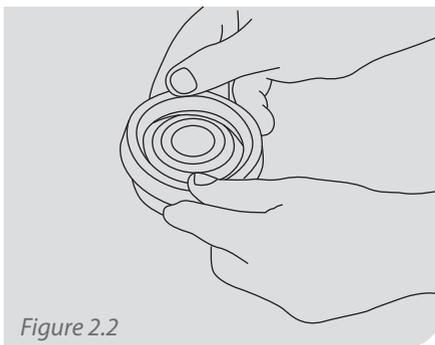

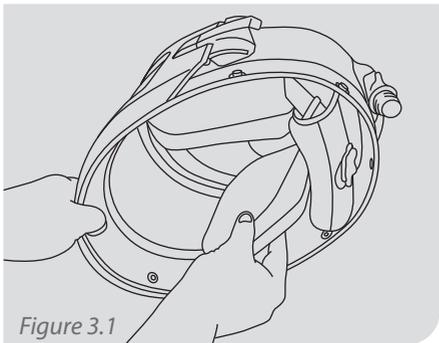

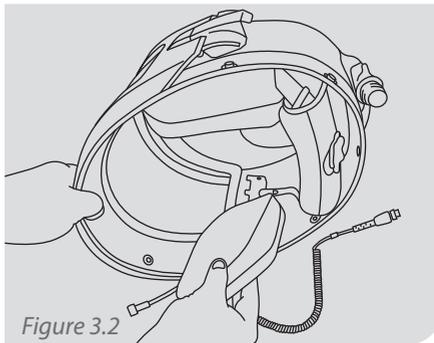

Figure 2.2

To fit, press the Protective Shroud onto the PTT.

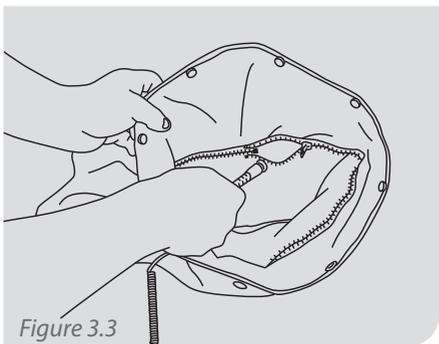

## UPGRADE

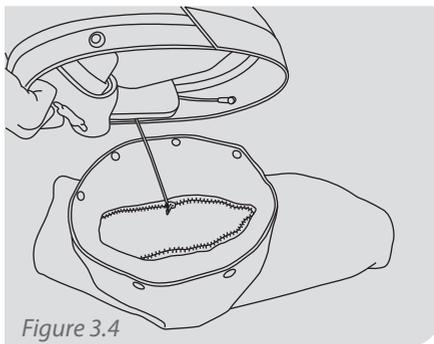

Remove the Cape and Sidepad from your Nova 3.

Place the Nova 3 Talk Sidepad into the helmet, ensuring that it is securely attached to the joining bracket.

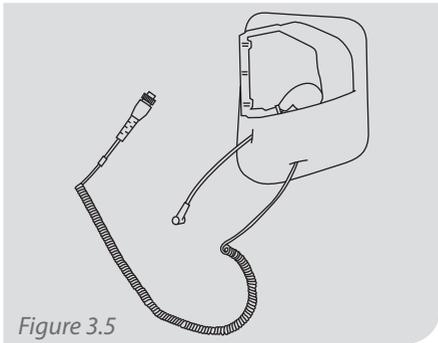

Open the zip in the inner bib so that the Cable from the Head Set can pass through.

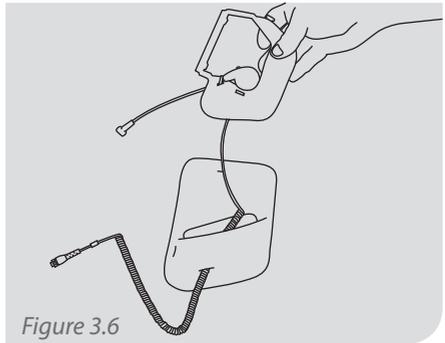

Close the zip so that there are no gaps. Then refer to the Set up Section to complete the Set Up of the Nova 3 Talk Helmet.

# rpb® NOVA 3 TALK®

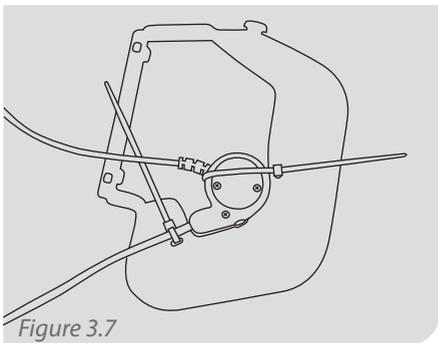

## UPGRADE CONTINUED

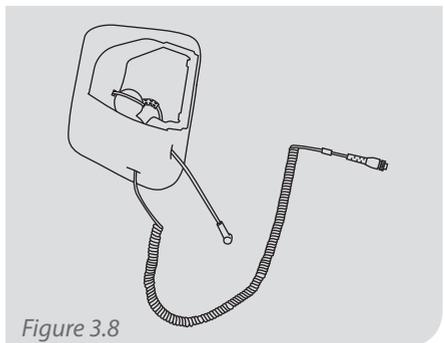

To swap the Nova 3 Talk headset from the left side to the right side.

Remove the headset from the sidepad and cut the cable ties.

Place the headset on the right hand frame, and attach with cable ties as shown, then trim the ends of the cable ties.

Insert into right sidepad, and clip back into the Nova 3.

## MAINTENANCE

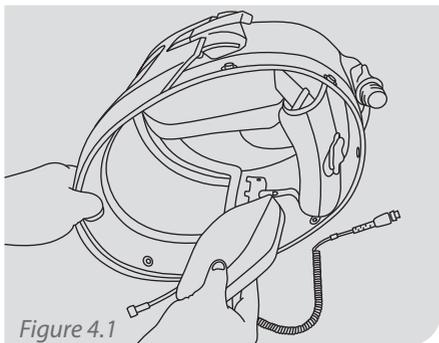

Figure 4.1

After removing the cape from the helmet, take the sidepad out of the helmet.

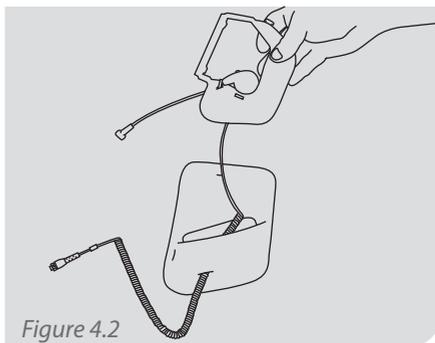

Figure 4.2

Carefully remove the headset from the sidepad. **Note: this device is fragile, please use extreme care.**

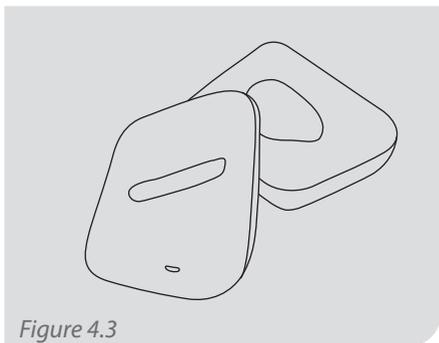

Figure 4.3

Separate the cover and the sidepad.

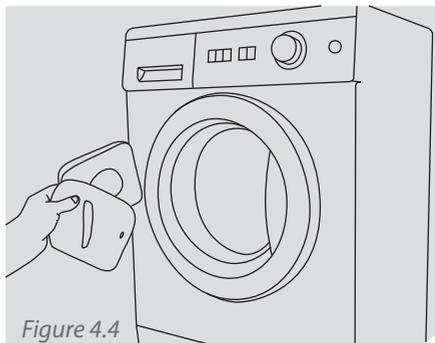

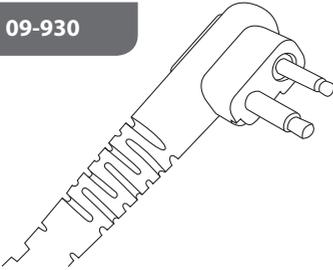

Figure 4.4

The sidepad and cover can be wiped clean or washed in a conventional washing machine.

## AIRLINE FILTRATION

The RPB® RADEX AIRLINE FILTER™ offers increased capacity, versatility and filtration. This optional equipment combines the versatility of either floor or wall mounting with increased filtration capacity, enabling customization to meet worker's needs and working environments.

## AIR TEMPERATURE CONTROL

The RPB® 4000-01 Cool Air Tube cools compressed breathing air coming into the respirator by up to 30°F while the RPB® 4000-20 Hot Air Tube will heat the compressed air by up to 30°F. These maximize worker comfort and increase productivity in hot or cold climates.

## AIR QUALITY MONITORING

The RPB® RADEX CO MONITOR™ helps ensure worker safety with a unique traceability feature that monitors and records carbon monoxide levels, and temperature. This data that provides certainty of monitor functioning and can be stored for up to two years allowing analysis of plant and field air quality.
